# 1 INTRODUCTION

## 1.1 PURPOSE OF THE CHANGE MANAGEMENT PLAN

The Change Management Plan documents and tracks the necessary information required to effectively manage project change from project inception to delivery.

The Change Management Plan is created during the Planning Phase of the project. Its intended audience is the project manager, project team, project sponsor and any senior leaders whose support is needed to carry out the plan.

## 2 CHANGE MANAGEMENT PROCESS

The Change Management process establishes an orderly and effective procedure for tracking the submission, coordination, review, evaluation, categorization, and approval for release of all changes to the project's baselines.

### 2.1 CHANGE REQUEST PROCESS FLOW REQUIREMENTS

Step	Description
Generate Change Request (CR)	A submitter completes a CR Form and sends the completed form to the Change Manager
Log CR Status	The Change Manager enters the CR into the CR Log. The CR's status is updated throughout the CR process as needed.
Evaluate CR	Project personnel review the CR and provide an estimated level of effort to process, and develop a proposed solution for the suggested change
Authorize	Approval to move forward with incorporating the suggested change into the project/product
Implement	If approved, make the necessary adjustments to carry out the requested change and communicate CR status to the submitter and other stakeholders

### 2.2 CHANGE REQUEST FORM AND CHANGE MANAGEMENT LOG

Element	Description
Date	The date the CR was created
CR ID	Assigned by the Change Manager
Title	A brief description of the change request
Description	Description of the desired change, the impact, or benefits of a change should also be described
Submitter	Name of the person completing the CR Form and who can answer questions regarding the suggested change

Version	The product version that the suggested change is for
Priority	A code that provides a recommended categorization of the urgency of the requested change (High, Medium, Low)

**2.3 EVALUATING AND AUTHORIZING CHANGE REQUESTS**

Change requests are evaluated using the following priority criteria:

<b>Priority</b>	<b>Description</b>
Critical	This issue results in the unusability of the product due to its basic functions not being able to run. This CR will impact all users and has to be resolved immediately.
High	Any change that impacts important product components or systems structure, may require outage. This includes the need to overhaul project requirements and structure. This CR need to be resolve with immediate attention as it will impact major users
Medium	CR was made by a client and is mandatory. CR causes little to no impact on the integrity and performance of the system and should be addressed accordingly.
Low	Minor issues such as minor bug issues , cosmetic changes , and client feature requests that can be rejected. CR causes little to no impact on the integrity and performance of the system and should be addressed accordingly.
Insignificant	Small-scale feature made by client. This CR does not impact the system to any form.

Change requests are evaluated and assigned one or more of the following change types:

<b>Type</b>	<b>Description</b>
Scope	Change affecting scope
Time	Change affecting time
Duration	Change affecting duration
Cost	Change affecting cost
Resources	Change affecting resources
Deliverables	Change affecting deliverables
